

Petrol High Pressure Compact Units

200 - 700 bar | 13-36 LPM | 9,6 - 23,1 kW

These functionally equipped high-pressure units with petrol engine are robust and affordable! Available with a power up to 23,1 kW, 200 - 700 bar, with a flow range of 13 - 36 LPM.

Specifications

Pressure: 200 - 700 bar

Flow: 13 - 36 LPM

Power: 9,6 - 23,1 kW

Drive: Petrol

Features

- Compact and solid design
- Excellent quality
- Low maintenance
- SIR certified
- Customization possible

Diesel High Pressure Compact Units

Up to 1500 bar | 13 - 30 LPM | 7,4 - 39,5 kW

These affordable Diesel high pressure units are suitable for any application. Available with a power up to 39.5 kW, a pressure of 160 - 1500 bar, with a flow range of 13 - 30 LPM.

Specifications

Pressure: 160 - 1500 bar

Flow: 13 - 30 LPM

Power: 7,4 - 39,5 kW

Drive: Diesel

Features

- Compact and solid design
- Excellent quality
- Low maintenance
- SIR certified
- Customization possible

Electric High Pressure Compact Unit

130 - 1000 bar | 15 - 42 LPM | 15 - 37 kW

The compact high-pressure electrical units are low noise and economical. Available with power up to 37 kW, maximum pressure up to 1000 bar and a flow range of 15 - 42 LPM.

Specifications

Pressure: 130 - 1000 bar

Flow: 15 - 42 LPM

Power: 10 - 37 kW

Drive: Electric

Features

- Compact and solid design
- Excellent quality
- Low maintenance
- SIR certified
- Customization possible
