

Floor Cleaner

100 - 2800 bar | 10 - 40 LPM

Floor cleaners are powerful tools to perform different surface treatments with ultra high pressure up to 2800 bar, such as removing oil and grease with warm (95 degrees) water and paint, markings, cement and other types of materials. The nozzles of the floor cleaner rotate in order to work quickly and efficiently.

Specifications

Pressure: 160 - 2800 bar (2,300 - 41,000 psi)

Flow: 10 - 40 LPM (2.6 - 10.6 gpm)

Applications: Floor cleaning, coatings, paint and markings, etc.

Features

- For use with hot and cold water
- Sustainable
