

High Pressure PTO Units

100 - 2800 bar | 10 - 480 LPM | 10 - 169 kW

PRO-Jetting high pressure units cover a full power range from 10 to 169 kW and maximum operating pressures up to 2800 bar (40,000 psi). These units are developed according to your specific requirements if required and are driven by a PTO motor.

Specifications

Pressure: 100 - 2800 bar (1450 - 40,000 psi)

Flow: 10 - 480 LPM (2,6 - 126,8 gpm)

Power: 10 - 169 KW

Drive: PTO

Applications: Industrial maintenance (ship hulls, pipe washing, systems, exchangers, towers, filters, etc.) Concrete renovation (hydrodemolition, steel cutting, tank cleaning). Various industrial applications (foundry, descaling of steel plates and blocks, cleaning and deburring of special parts, engines, etc.)

Features

- Software controlled for automatic applications
- Customization possible
- SIR certified
