

Tumblebox

2800 bar | 30 LPM

The PRO-JETTING Power Box is a tumble box designed for the simultaneous use of multiple high-pressure guns or lances on a single high-pressure unit. The tumblebox works with air pressure and ensures that the working pressure remains the same when one of the guns is not operated.

Specifications

Pressure: Max. 2800 bar (41,000 psi)

Flow: max. 30 LPM (7,9 gpm)

Connection: M26x1,5 – F3/4"UNF

Weight: Ca. 10 kg

Applications: Abrasive steel cutting, coatings and paint removal (bare steel), bundle cleaning, etc.

Features

- Air switch (Max. 8 bar)
- Compact and sustainable
