

## Long Cavitation Cleaning Gun

CW300 - max. 90 N reaction force

The CW300 long gun can be used for underwater cavitation cleaning with pressures up to 300 bar to prepare underwater surfaces for coating or removing corrosion, instable coatings and layers of fouling, oysters, barnacles and other marine life. The CW300 is made out of the highest quality materials, ergonomic and safe to use with its long double-walled lance and visible tip.

## Specifications

**Compatible with:** All DiveWise high pressure units, except HDE440\_96, HDMD410\_96

**Minimum pressure:** 120 bar (1,740 psi)

**Maximum pressure:** 300 bar (4,350 psi)

**Reaction force:** Max. 90 N

**Minimum flow:** 11 LPM (2.9 GPM)

**Maximum flow:** 28 LPM (7.5 GPM)

**Lance length:** 750mm (29.5")

**Retro lance length:** n/a

**Weight:** 1600g (3.5lbs)

**Weight under water:** 800g (1.8lbs)

**Certified:** SIR

## Features

- Improved cavitation technique
- Intensity adjustable with high-pressure unit
- Durable, salt water resistant materials
- Double-walled stainless steel lance
- Tapered lance tip with visible cover ring
- Ergonomic controls
- Large control lever with "Safety catch"
- Swiveling connection
- Use with single neutrally buoyant high-pressure hose
