

## Gasoline High Pressure Unit

13 LPM @ 150 bar

The gasoline engine driven HDMP150\_13 high pressure unit is compact and economic for cavitation cleaning. The 13 LPM @ 150 bar, stand-alone unit is built as a cart with pump, engine, gasoline tank and detergent tank for cleaning the deck with a regular high pressure gun. The HDMP150\_13 is compatible with the CW200 short gun and CW300 long gun for removing light fouling from hulls and propellers.

## Specifications

**Compatible with:** CW200, CW300

**Max. Pressure:** 150 bar (2,175 psi)

**Max. flow:** 13 LPM (3.4 GPM)

**Power:** 5,5HP Honda gasoline engine

**Weight:** 38kg (83.7 lbs)

**Dimensions:** 62x90x84cm  
(24.4x34.4x33")

## Features

- Removes light fouling from hulls, propellers and underwater surfaces
- Detergent tank for deck cleaning with non cavitation gun
- Heavy duty, 4 wheeled cart
- Manual pressure valve
- Readily serviceable water filter
- No engine-oil safety device
- Motor thermal protection
