

Electric High Pressure Unit

11 LPM @ 120 bar

The electric HDE120_11 high pressure unit is the most compact and economic high pressure unit for cavitation cleaning. The HDE120_11 is powered from a regular 230V single-phase outlet and compatible with the CW200 short gun and CW300 long gun for removing light fouling from hulls and propellers. The high pressure unit features a detergent tank for cleaning the deck in combination with a regular high pressure gun.

Specifications

Compatible with: CW200, CW300

Max. Pressure: 120 bar (1,740 psi)

Max. flow: 11 LPM (2.9 GPM)

Power: 2,9Kw, 230v, 50Hz

Weight: 40kg (88lbs)

Dimensions: 62x47x51cm

(24.4x18.5x20.1")

Features

- Removes light fouling
- Detergent tank for deck cleaning with non cavitation gun
- Compact mobile design
- Manual pressure valve
- Motor thermal protection
