

## Underwater Grinding and Polishing

### GR100 - GR200 - GR300

DiveWise Equipment water hydraulic underwater tools are water driven and compatible with the same high pressure unit used for cavitation cleaning. The GR100 Underwater Peanut Grinder and the GR200 and GR300 Underwater Vertical Grinders are connected via a single Neutrally Buoyant high pressure hose for grinding and cutting materials, finishing welds, brushing surfaces and polishing propellers.

## Specifications

**Compatible tools:** M14 thread with Disc adapter

**Water pressure:** 100 - 300 bar (1,450 - 4,350 psi)

**Water flow:** 20 - 40 LPM (5.3 - 10.6 GPM)

## Features

- Powerful and serviceable water motor
- Durable, salt water resistant materials
- Torque and speed adjustable with high-pressure unit
- Large control lever with "Safety catch"
- Adjustable handle for second hand
- Single supply hose
- Compatible with Monti Bristle Blaster® for surface preparation without grit

## Underwater Grinders

Product	Max. Power	Max. RPM	Weight	Weight Underwater
GR100 Underwater Peanut Grinder	2,000 W	20,000 RPM	1,5kg (3.3lbs)	1kg (2.2lbs)
GR200 Underwater Vertical Grinder	3,000 W	15,000 rpm	2kg (4.5lbs)	1.5kg (3.4lbs)
GR300 Underwater Vertical Grinder	6,000 W	4,000 rpm	2.5kg (4.8lbs)	2kg (4.5lbs)
